SUPERVISORS IN ADJOURNED SESSION

They Stand Pat on Resort Issues and Say that Questionable Places Must Go

The Board of Supervisors met in adjourned session Monday, November 27, at 10 a. m., there being present Jos. M. Francis, presiding; Jas. T. Casey, Wm. S. Brown, John MacBain and C. V. Thompson.

The board on motion of MacBain seconded by Casey awarded a contract to C. H. Saas to paint the flag pole in front of the court house at a cost of $50 the contract calling for two coats.

The following bids were opened for the purchase of the $15,000 bonds of the West Union School District:

Bank of Italy	$1035.00
Torrance Marshall & Co.	958.00
Blythe, Whitter & Co.	1012.00
William R. Staats	855.00
Byrne & McDonnell	925.00
F. M. Browne & Co.	329.75
Hanchett Bond Co.	329.75
E. H. Rollins & Sons	838.00
Lumberman's Trust Co.	936.00

Before action was taken by the supervisors in awarding the sale of the bonds, a lengthy communication was read from John Eschenbacher, clerk of the West Union School District, asking that the sale of the bonds be deferred until a controversy regarding the selection of the site for the proposed new school be settled.

As the matter of the selection of the school site was not one for the supervisors to decide upon the board upon the suggestion of District Attorney Swart ordered the communication referred to the school board.

The bid of the Bank of Italy of $1035 being the highest offered for the above bonds, was accepted on motion of Brown seconded by Thompson.

A resolution authorizing the sale of the above bonds was adopted on roll call on motion of Brown seconded by Thompson.

Judge E. F. Fitzpatrick and Attorney J. E. McCurdy both appeared before the board again in reference to the drainage facilities on the San Pedro road in the first township, the former representing Robert Thornton and the latter A. Roza, two owners of property along the said road to provide more culverts to carry off the flood waters in the winter time in order to protect the lands of their clients from damage from the water running off the road.

Supervisor MacBain reported that he had viewed the situation in company with Supervisor Casey and Surveyor Neuman and is his opinion the building of additional culverts would not remedy the situation materially. While it seemed to be the concensus of opinion on the part of the majority of the members of the board that the constructing of culverts on private property of individuals would be a bad precedent for the county to establish the supervisors decided to visit the property in question and make an investigation in a body.

A resolution containing an agreement between the Pacific Gas and Electric Company and the Colma Highway Lighting District relative to certain changes in the lighting system of the above district was adopted on motion of Casey, seconded by MacBain.

Mrs. Annie Seger of San Francisco, owner of the Colma Hotel, appeared before the board and asked the supervisors to reconsider their action in refusing to grant a license permitting the sale of liquors in the saloon connected with the hotel. It was just outside the barroom of the hotel that an Italian laborer was beaten to death by a young San Francisco stevedore during a drunken brawl last summer and the board shortly after that at the request of the district attorney refused to renew the license of the lessee of the saloon and ordered the place closed.

Mrs. Seger sought to show the members of the board that the place had always been conducted in a decent and respectable manner and that the saloon had not been in any way responsible for the commission of the above crime. She stated that the taking away of the license and the closing of the saloon was working a hardship upon her inasmuch as it deprived her of her monthly rentals.

Mrs. Seger received very little sympathy, however, from the board or from District Attorney Swart who was present at the hearing. The latter told Mrs. Seger that the saloon in the Colma Hotel was one of the worst resorts that the authorities had to contend with; that it had been a rendevous for years for hoodlums and toughs from San Francisco and that for two years it was necessary to keep a special policeman stationed at the place every Sunday night to maintain the peace.

Chairman Francis told the woman that the supervisors were trying to close up all the bad saloons in the county. This was the policy they had adopted and they intended pursuing it until every objectionable place was closed.

On motion of Brown seconded by Thompson the sum of $1510.26 was ordered transferred from the general fund to the Hillsborough Crystal Springs road fund in order to meet a deficit in the latter fund to complete the contract of Eaton & Smith.

County Surveyor J. V. Neuman presented plans and specifications for a culvert on the Alpine road in the third township which were adopted on motion of MacBain seconded by Casey.

A claim presented by Under-sheriff H. W. Lampkin covering the payment of the men who fought the fire at Tunitas Glen last week, was allowed on motion of MacBain seconded by Casey.

On motion of Brown seconded by Casey it was ordered that the sum of $200 which had been held out of the final payment of Eaton & Smith on their contract for the construction of the Hillsborough to Crystal Springs road, be paid.

The board adjourned at 11:45 a. m., to meet Monday, December 4 at 10 a. m.

Tactless Salesman.

The motorcar salesman's lack of judgment cost him a sale. He was trying to sell a professional man a machine, but he handed out the wrong kind of talk and "queered" the deal. His prospective customer had been in two or three serious motorcar accidents while out riding with friends and really was just a bit timid about riding in a machine, although to please his family he had just about made up his mind to buy one. The motorcar man, with much glibness and effectiveness, presented the various virtues of his car. "Just look at the axle," he said. "When you get in a smashup that axle, unlike many others, will not break, but will bend and so can be repaired without much expense."

This unfortunate argument spoiled the sale. It aroused the sense of fear which the professional man had when riding in a machine, and he told the salesman that he guessed he would not place his order for a machine at that time.—Columbus Dispatch.

National Political Conventions.

In Democratic national conventions every state votes as a unit, the will of the majority determining the choice of the state delegation, the vote of two-thirds of the delegates being required to nominate. It has never been determined whether two-thirds of all the delegates to the convention or two-thirds of those present is requisite. In the convention of 1884 the opposition to Cleveland made strong efforts to break the unit rule.

In Republican national conventions every delegate votes as an individual merely, and a majority vote is sufficient to nominate. The only real attempt to introduce the unit rule, or vote by states, was made in 1890 in the interest of Grant's nomination for a third term (his second term expired in 1877), but it failed. These rules have been adopted by convention after convention, although their adoption by any subsequent convention is in no way assured.

"The Gilded Man."

The name "El Dorado," which dates back to the first part of the sixteenth century, is Spanish for "the gilded one" and an abbreviation for the "gilded man" (el hombre dorado). It was first applied to a native South American ruler or priest who, so early Spanish writers state, was gilded at a certain annual ceremony and then bathed in a lake near Santa Fe de Bogota, Colombia. The name next came to signify a legendary golden city, also called Manoa or Omoa, much sought after but never found. Later it was used to indicate a mythical country somewhere in South America where gold and precious stones were to be found in great abundance and for which many expeditions searched in vain, among them those of Ordaz, Orellana, Von Hutten, Quesada and Sir Walter Raleigh. Today El Dorado is used metaphorically to designate a place where wealth can be rapidly acquired.

As to whether the nebular theory applies to this earth or not doesn't matter much now. The main thing is to enjoy it while we're living on it.—Florida Times-Union.

CITY OFFICIAL PAPER

Seeing the success of Southern California legislators by standing together on matters affecting the southland; members comprising the representation from the northern counties are talking of holding a caucus prior to the opening of the legislature in Januaray and make plans whereby they will be a little stronger than in past years. The San Francisco Bay region will be represented in this caucus which will take in the coast, mountain and valley counties from Stockton north.

The northern legislators have always been a hard crowd to handle in a caucus. The San Francisco delegation usually stick pretty close together, but aside from that exception the so-called "cow country" members do not find much cooperation when it comes to a sectional line-up. This time, however, report has it that some of the up-state members are going to exert themselves to lay aside bygone differences and work with their big colleagues. A solid combination would give the northerners the balance of power.

It is a foregone conclusion that C. C. Young of Berkeley will again be chosen speaker of the Assembly. Several have been mentioned to succeed Newton Thompson of Alhambra as president pro tem of the Senate, but two of the most likely names discussed so far are Edwin J. Tyrrell and A. H. Breed of Oakland. These two solons are said to be making a campaign for the post which usually carries with it the title of floor-leader.

A couple of good jobs are open in Senate and House. Edwin F. Smith, the last secretary of the Senate, is now property man of the State Board of Control, so will not seek reelection and L. B. Mallory, chief clerk of the Assembly, is the assistant secretary of the State Board of Health. The sergeant-at-arms job in the Assembly is open and possibly the same place in the Senate, unless Thomas A. Brown wants to again go for the place.

There is going to be some lively rustling for committees on ways and means, judiciary, public morals and a couple of others. The new Lieutenant Governor, William Stephens, will have the naming of the committees in the Senate.

WALNUTS BY THE WAYSIDE

Permission has been secured by the Visalia Board of Trade from the State Highway Commission for setting a double line of walnut trees on either side of the state road between Visalia and Goshen. Trees for the purpose have been donated by M. J. Rouse of that city. J. B. Agnew, also of Visalia, has given sufficient sweet pea seed for planting these flowers on either side of the road. Trees of this variety and others planted along the state highway through the peninsula would be a good way in which to beautify the highway.

Bells placed at railroad crossings are a great blessing—at times. But when in the stilly watches of the night some irresponsible member of a freight-train crew manages to leave a string of freight cars standng so the warning bell keeps ringing, and then forgets to remove the cars, and the bell continues its unearthly clatter for the rest of the night, the bell is anything but a blessing. Many a man who could give Moses lessons in meekness and Job pointers in patience, will arouse from his slumbers and blaspheme the careless member of the freight crew who has so little consideration for his slumbers. Undoubtedly if the matter were brought to the attention of the proper railroad authorities, freight-train crews would exercise more care in the matter.

We think home love is the best. The love that you are born to is the sweetest that you will ever have on earth. You, who are anxious to escape from the home nest, pause a moment and remember that this is so. It is right that the hour should come when you in your time should become a wife and mother and give the best love to others, but that will be just it. Nobody, not a lover, not a husband, will ever be so tender or so true as your father or mother. Never again after strangers have broken the beautiful bond, will home circle of mother, father and children where you were cherished, praised, protected and kept from harm, be the same.

PUT ON WATER WAGON

Ole Olsen and Frank Buckley of Menlo Park, who were charged with disturbing the peace and dignity of that quiet village, were up before Judge Seely yesterday. The magistrate let the two men go on probation and they were placed on the "water wagon" for a period of six months. Should John Barleycorn tempt them during that time they will be remanded to the county jail to serve six months.

Ever hear the story of the empty purse? Well, there's nothing in it.

Nobody hears the coal man complaining about the extreme cold weather.

U. S. GOVERNMENT AEROPLANE BASE

Peninsular Conditions for Such Are Ideal; Selection Would Mean Much for Redwood

The people of Redwood City are working with a good spirit and in harmony to secure the aero squadron base for this city. This locality is entirely favorable for flying machines the air currents being particularly favorable for flights at most any time of the day. Other sections are making a determined fight for the coveted prize but with a strong effort on the part of the people of the peninsula the government may decide to locate the base here.

There is going to be a big fight between northern and southern California for the possession of the aero squadron base. During the last week the factions were busily engaged in establishing their lines of trenches. On Thursday members of the Redwood City Chamber of Commerce and the San Francisco Chamber of Commerce held a council of war at the Union League Club in San Francisco.

As a result of this meeting the San Francisco Chamber of Commerce, under the leadership of President Fred J. Koster will head a movement of all the commercial and civic organizations of the communities on the San Francisco bay to wage a campaign for the location of the aero squadron base in the vicinity of Redwood City.

At the same time the San Diego commercial and civic organizations combined with the organizations of Los Angeles. It is their common object to induce the government to buy the site for its aero squadron base on the shores of San Diego bay.

In behalf of the Redwood City proponents, Congressman Julius Kahn and Congressman Hayes have already gone East. Congressman Kahn especially stopped at El Paso to arrange with General Scriven, head of the Signal Corps, for a favorable consideration of the Redwood City site. General Scriven is making a tour of inspection along the border. During the week, likewise, the committee headed by George H. Irving, George C. Holberton and George A. Merrill, all of San Francisco and Redwood City, obtained the co-operation of Senator Phelan and Secretary of the Treasury McAdoo.

$300,000 APPROPRIATION

The immediate object of the campaign is to induce the War Department to chose the real estate for which it has an appropriation of $300,000 available. But beyond this there is another $300,000 which is to be spent by the War Department in acquiring an experimental field. And, naturally, each site will bear improvements totaling probably $400,000 more. Moreover, wherever these fields are established there will be a center of the aeronautical industry of the United States. In these localities will be spent a very great proportion of the $30,000,000 available in various government departments for commercial development of aircraft.

Additional interest in the aero base situation has been aroused by the Naval Board, which is visiting the Pacific coast. This body, under Admiral Helm, is not only looking for naval base sites, but is locating suitable properties where an aero base for the navy may be established. This base will be an entirely separate institution from the army base and will cost not less than the army base.

BASE AT PENSACOLA

The navy has available a very large fund to develop its aerial department. Its main base at present is at Pensacola, Fla. But the climatological conditions, as well as the metorological conditions and other considerations, make it necessary to establish the base at some point more suitable. It is known that the navy people are very deeply impressed with the California coast. There is scarcely a doubt that the navy base will be established somewhere along the coast of California. But there is no inkling in regard to their choice of the locality.

It is recognized that the various aero base sites, army and navy, will be established in close contiguity. This means that the section which is successful in securing the army base will later unquestionably secure the navy base. On account of its phenomenally uniform climatological conditions California is regarded by both army and navy aeronautical experts as the great military aeronautical center of the future. If pure utility and adaptability governed the choice there would be no doubt concerning the great future of California from an aeronautical standpoint. There is, however the political factor constantly to consider.

SCRUBBING REDWOOD"

At the Methodist church Sunday night at 7:30 the pastor will speak on "Scrubbing Redwood." He has been asked by a large number of friends both in and out of his church to make a statement to the public for the sake of those who have heard only one side of The Star controversy. The morning service will be at 11 o'clock, at the beginning of which a five-minute talk will be given to the children. Sunday school at 10 a. m. Epworth League at 6:45 p. m. A cordial invitation is extended to all of our services.

HUMOROUS LECTURE ON NEXT MONDAY NIGHT

Dr. Kramer, one of San Jose's most popular preachers,, is to visit Redwood City. He is th man who is called upon to speak before Chambers of Commerce, Rotary Clubs, and other civic organizations, in San Jose, San Francisco and adjoining towns.

His large church is always crowded to the doors. At the Congregational church, next Monday night at 8 o'clock. he gives his humorous lecture "How's Your Gizzard?" It is a lecture that has a big kick in it, and every body will want to hear it. The lecture is held under the auspices of the Baptist church and is free to all. A silver offering will be taken for the church work now going on.

TAUGHT THEM A LESSON.

The Czar's Rebuke to the Officers of One of His Regiments.

The czar is greatly loved by his own soldiers, and no wonder, for the following story is typical of him:

A certain Russian lieutenant who was none too well off was one day seen riding in a tram. The other officers of his regiment were furious at what they called an insult to the uniform, and they told the lieutenant that he must send in his papers. The unfortunate young officer had no alternative, but before he could do so the czar heard of the affair. Immediately putting on his colonel's uniform of the regiment in question, his majesty left the palace, hailed a passing tram and, entering it, sat calmly down until it stopped in front of the barracks.

There he got out and, assembling all the officers, said to them:

"Gentlemen, I have just ridden from the palace in a tram, and I desire to know if you wish me to send in my papers. I presume I have disgraced my uniform."

Naturally the officers were dumfounded.

"Sire," stammered the major nervously, "you could never do that."

"Then," answered the czar, smiling, "as I have not degraded the uniform Lieutenant —— cannot have done so and will thus retain his commission in this regiment even if he, like me, dares to ride in a tram."

After that snobbery died a speedy death in that particular regiment.—Pearson's.

TRY IT ON THE DISK.

A Test That Proves the Human Skull a Good Sounding Box.

An interesting experiment that proves what a good sounding box the human skull is can be performed by any one who has a disk phonograph, says Electrical Engineering.

Stop up both of your ears with cotton as tightly as possible, so that no sound will be heard from the outside. Now place an ordinary darning needle between your teeth by biting on it hard, taking care that the tongue or lips do not touch the needle. The latter is important, because if either lip or tongue touches the needle the sound will be decreased considerably.

For the best results the needle itself should project not more than one or one and a half inches from the mouth. For that reason the darning needle should be broken off about one and one-half inches from its sharp point. It goes without saying that the sharp point should project out of the mouth, while the broken off end should be inside the mouth.

Now start an ordinary disk phonograph and carefully press down upon the record with the needle's point held at the same angle as the reproducer's needle is held ordinarily. As soon as the needle touches the record with sufficient pressure the inside of the head will be filled immediately with music exceedingly loud and clear.

Brignoli In a Temper.

On one occasion Bianchi, the noted teacher, went on the stage to see Brignoli, the famous singer, whom he found pacing up and down like a madman, humming over his part.

"Why, Brig, what is the matter with you? Are you nervous?" he asked.

"Yes, I am nervous," was the reply as he walked harder and faster than ever.

"But, Brig, you ought not to be nervous. I've heard you sing the part 200 times. I heard you sing it thirty years ago."

"Thirty years ago! Who are you that should know so much?"

"Who am I? You know who I am, and I know who you are."

"Very well; you know what I am, but I am sure you do not know what you are, and if you wish I will tell you. You are a fool!"

Simon Mack met with a slight mishap on Thursday. His automobile had a collision with another machine on the corner of Atherton avenue and the highway. Mack was thrown out and severely bruised. His niece, who was in the car with him, was also thrown out and slightly injured.

William D. Shea, son of Mr. and Mrs. Will D. Shea of Atherton, was awarded the first prize by the Redwood City fire commissioners last Friday night for the best essay written on fire protection by the Redwood City grammar school pupils. Young Shea is a clever youngster, showing at his early age much literary ability.

Harry M. Holbrook, head of the firm of Holbrook, Merrill & Stetson, San Francisco, was stricken with apoplexy while eating at the Palace Hotel Friday last. He is at Adler's sanitarium and reports from that institution would indicate that he will recover. His father, Charles Holbrook, who has a summer home here went up to the city last week to be near his son.

Several of the wealthy residents here are making exhibits at the Oakland poultry show. Joseph A. Donohoe has a fine display of poultry which captured one of the first prizes yesterday. The show is accounted one of the best ever held in the State.

Mr. and Mrs. Edmund Janss came up from Los Angeles to spend a few days with Mrs. Janss' mother, Mrs. William Cluff. Mrs. Janss is the youngest of the Cluff girls and is a noted beauty.

A well-dressed man giving his name as Max Pietsch was arrested this week here by Under-sheriff H. W. Lampkin on a charge of burglary preferred by Charles Duverouy, chauffeur for W. B. Weir. On October 23 someone entered the chauffeur's room and carried off an overcoat, a cigar holder and other valuable belongings. Pietsch was unable to give a satisfactory explanation of his business in Menlo Park and he was lodged in the county jail.

W. L. Growell, Atherton merchant and capitalist, will administer upon the estate of Jack London. He is a relative of the late lamented novelist. The London estate consists of a 1500-acre ranch in the Valley of the Moon near Glen Ellen highly improved and valuable. The royalties on London's books amount to about $5,000 a month. This does not include his income from picture shows. London had little ready cash, his income going into the big ranch for improvements, buying prize stock and building barns and outhouses.

WAS OF THE LAST SPANISH GRANDEES

Nicholas Martinez, of Portola and Monterey, Joins the Great Majority of Departed

Nicholas Martinez, perhaps one of the last of the old Spanish grandes that came to this county at a very early date and located on large tracts of land in the Santa Clara valley, passed away at the home of his daughter, Mrs. Sebran at Alameda last Saturday. He was born at Monterey near old Carmel Mission ninety-six years ago. In his reminiscent moods Mr. Martinez would tell of his early recollections of the Monterey and Santa Clara Missions. He knew the mission padres very well and attended divine services in those churches. Up until a short time ago Mr. Martinez resided with his niece, Mrs. Mary O'Sullivan of Redwood City and prior to coming here he lived with his daughter, Mrs. Gonzales at Halfmoon Bay. He was a genial gentleman, retaining all his faculties and physical strength almost up to the time of his death. At a very early date he came from the south accompanied by his brother, Jose Antonio Martinez and settled on a vast tract of land in and around Portola. The deceased at one time owned all the property now possessed by Mayor James Rolph in the Alpine district. He also owned the old Burke place and the Macdonough stock farm property. His large herds roamed over this vast tract of choice, fertile land. Like all the old Spanish settlers he was not prudent, allowing his vast possessions to pass to others. He died without any means. The kingly estate he once owned is now worth, perhaps millions. His brother died some years ago leaving a big tract of choice land at Woodside. Mrs. Faber of Palo Alto, Mrs. Freeman, Mrs. Boos and Mrs. O'Sullivan are his nieces, all well known in the peninsula. They are the daughters of Jose Antonio Martinez. The old gentleman loved to tell of the happy days of early California when all the settlers enjoyed peace, prosperity and happiness. Poverty and hard times were unknown. Pleasure was the goal of everyone and from all accounts the early Californians reached it.

MIRAMAR COASTSIDE "CASINO" TO HAVE OPENING

The new casino at Miramar costing $25,000 and owned by Joseph S. Miguel will be formally opened under the auspices of the Eagles of Halfmoon Bay on New Year's Eve. A large crowd will attend the opening. The casino is located on the crest of a hill overlooking the Pacific ocean. It contains 21 rooms, a large ballroom with a fine maple floor and a big dining room. No doubt this will be the mecca for dance goers. Salt water baths may be had. It is one of the most modern hotels in the state. Serf bathing may be had only a few yards from the casino. Anyone stopping at the casino may have the benefit of fishing on the beach. Crab fishing is now the big sport at the beach. Fishermen will make this hotel their headquarters while on the coast. Mr. Miguel will make an accomodating host.

LOCAL HUNTERS SUCCESSFUL

All local hunters are daily bringing big bags of ducks to town from the near by salt ponds and marches. The sport is splendid and there is a good flight of ducks, particularly teal, here. The price of the birds, like all things else, is very high, the charges being 75 cents a piece or $1.25 a pair. The soaring price of cartridges causes these aviation figures.

Although the duck shooting in all parts of the State is far better than in several seasons past, sportsmen expect that even more satisfactory sport is in store for them within the next few weeks. The advance guard of the northern birds has already arrived but there are declared to be millions of fine fat ducks which have not yet ventured this far south and the gun pointers are expecting them to get within range almost any day now.

SAN CARLOS ITEMS

Mrs. N. T. Smith left yesterday for San Francisco where she has engaged apartments for the winter months.

Mrs. T. G. Phelps is critically ill in a San Francisco hospital. Late reports from the institution are not very encouraging. Her friends are very much alarmed.

Louis H. Britton, principal of the high school at Morgan Hill, and Mrs. Britton visited Mr. and Mrs. W. A. Emmett Jr. on Thanksgiving. Mrs. Emmett is a sister of the popular school principal.
